Access to Medical Reports Act

We may need to get information from your doctor to support or check the answers you have given in your application.

Before we can ask any Doctor that you may have consulted to fill in a report, we need your permission under the Access to Medical Reports Act 1988 or the Access to Personal Files and Medical Reports (Northern Ireland) Order 1991.

Your rights are as follows:

1. Before we can apply for a medical report from a doctor who has cared for you, we need your agreement.
2. You do not have to give your consent but if you don't we may not be able to consider your cover.
3. You can ask to see a report before your doctor sends it to us. If you have said you want to see it before it is returned to us, we will write to let you know when the report has been requested and we will ask your Doctor to hold onto the completed report for 21 days so that you can arrange to see the report. If you have not arranged to see the report within this time, your Doctor will send the report to us.
4. If you choose not to see the report at this stage, you can ask your doctor to see a copy of the report for up to six months after it has been sent to us.
5. You can ask your Doctor to amend the report if you consider any aspect of the report to be incorrect or misleading. If your doctor refuses to make the amendments, you may add your comments to the report.
6. Your Doctor can refuse you access to the report if he or she feels it would cause physical or mental harm to you or others.

The medical report that your Doctor completes will ask about:

- Past and current health including relevant consultations, treatment, operations, investigations and test results that you may have undergone at any surgery, hospital or clinic, or the results of referrals or tests you are awaiting for
- Any history of disease among your parents or brothers or sisters that you have told your Doctor about

The medical report will not ask about:

- Negative tests for HIV, Hepatitis B or C
- Any sexually transmitted diseases unless there could be long-term effects on your health
- Predictive genetic test results unless there is a favourable test which shows you have not inherited a condition your family suffers from.

Genetic Testing

If you have had a genetic test, you only have to tell us if this application, when added together with any other cover you have for income protection, is above the following limit:

- £30,000 annual benefit for Income Protection.
- Above this limit you may need to give information about certain test results when applying for insurance. Only genetic test results which have been approved by the Government's Genetics and Insurance Committee will be used.

You must however give information if you have a family history or symptoms of a genetic condition. It may be beneficial to disclose if you have had a negative genetic test for such a condition.

You should take reasonable care to answer all the questions honestly and to the best of your knowledge. If you do not answer all of the questions fully and accurately, the cover in the event of a claim may be rejected or not fully paid.
